CV

Elias Nikolaos Pergantis, MEng, MS, PhD

1505 W Grande Blvd. Apt. 510, Tyler, TX, 75703, USA, Elias.Pergantis@outlook.com

Mechanical engineer and applied scientist with a PhD in thermal systems and controls with a focus on optimal and learning-based control and 7+ years developing forecasting, optimization, and machine-learning algorithms for residential HVAC, distributed energy resources, and grid-interactive buildings. Fluent in Python, MATLAB/Simulink, Modelica, and AWS.

EDUCATION

Purdue University 06/2021- 12/2024

- D-PhD in Mechanical Engineering (MS received August 2023)
  - *Supervisors: Prof. Davide Ziviani, Prof. Kevin J. Kircher*
  - Concentration: Advanced Controls & Thermal Systems. GPA: 3.97/4.00
  - Research Focus: Deployment of Model-Predictive-Control at scale in the US residential building stock.

University of Michigan at Ann Arbor 09/2020 - 05/2021

- D-PhD in Mechanical Engineering (4.0/4.0 GPA) – Transferred to Purdue University
  - *Supervisors: Prof. Pramod S. Reddy and Prof. Edgar Meyhofer*
  - Research Focus: Use of surface structuring for utilization in nanophotonics.

University of Bristol – United Kingdom 09/2015 - 09/2019

- MEng in Mechanical Engineering with First Class Honors (4-year joint degree)
  - Grade: 74/100, GPA 3.92/4.0 *(9th in a class of 95 students)*
  - Concentration: Computational Fluid Dynamics and Renewable Power Generation (Wind & PV).

PROFESSIONAL AND RESEARCH EXPERIENCE

Lead Engineer, Controls and Algorithms, Trane Technologies Residential R&D Group, Tyler, TX 01/2025 - present

- Lead strategic new technology development around smart HVAC and thermostat algorithms, from model identification through HIL validation to production embedded deployment.
- Areas of work include model-based control (MPC and adjacent methods), machine-learning surrogates, model identification from lab and field data, and code generation from Modelica and MATLAB/Simulink toolchains.
- Contributions to date include nine patent applications on smart HVAC, thermostat, and residential energy control.

Advanced Technology Intern, Lennox International, PD&R, 1600 Metrocrest Dr 05/2023 - 07/2023
Carrollton, TX 75006, Supervisors: S. Rajan, R. Goel, R. Brahme.

- Flammable refrigerant leakage mitigation testing to meet 2023 UL 60335-2-40 standard.
- Sensor integration and multi-processing.
- Hardware in-the-loop (HIL) testing.

Graduate Research Assistant, Center of High-Performance Buildings, Ray W. 06/2021 - 10/2024
Herrick Laboratories, Purdue University, US – **Supervisors: Prof. Davide Ziviani, Prof. Kevin J. Kircher.**

Research Projects

Thesis Title: ***Field Demonstration of Predictive Home Energy Management***

- Investigation of machine learning integration with advanced controls, namely model-predictive control (MPC), for optimization of a heat pump's operation in cold climate.
- Extensive experience in field testing, data acquisition and system troubleshooting.
- Collaborated with Carnegie Mellon University on a head-to-head reinforcement learning (RL) and MPC comparison.

Supplemental projects

Electrochemical Looping Heat-Pump (06/2021 – 12/2022)

- NO-Vapor compression, Electrochemical Looping Heat Pump (NOVEL HP), DE-EE0008673.

- Prototyping and experimental verification of a novel fuel cell-based heat pump cycle.

Thermodynamic Cycles for two-compartment Ultra Low Temperature Vaccine Refrigeration (10/2021 – 04/2022)

- Thermodynamic modeling of advanced vapor compression cycles (IHX, Economization, Cascade) in EES.
- Optimized vapor compression and air cycles identified and published.

Advanced Cycles and Applications for High Temperature Heat-Pumping (04/2022 – 09/2022)

- Thermodynamic modeling of three stage compression heat pumps and their benefits for heat delivery.
- Technoeconomic analysis of synergetic waste heat recovery applications of HTHPs.

Graduate Student Instructor, Heat Transfer (ME 335), University of Michigan 01/2021 - 05/2021

- 300-level course on different modes of heat transfer
- Organized MatLab computing and programming sections.
- Assisted students in comprehension of course material & graded HWs and Exams.

Graduate Research Assistant, NanoHeat Transport Research Group, Faculty of Mechanical, Engineering, University of Michigan, US – Directors: Profs. E. Meyhofer & P. S. Reddy 09/2020 - 05/2021

- Research into how surface structuring and 1D photonic crystals can be used for enhanced TE in the infrared.
- Lurie Nanofabrication Facility, Clean Room Training.

Freelance Mathematics and Physics Tutor, Athens, Greece 09/2019 - 09/2020

- Privately tutored senior high school students for their Panhellenic examinations.
- Aided undergraduate students in advanced computational modelling relating to Heat Transfer and CFD.

Lab & Research Assistant, Biofluids Research Group, Faculty of Mechanical Engineering, Bristol University, UK – Director: Dr. Alberto Gambaruto 09/2018 - 06/2019

- Created a swallowing simulation software using 360-CT scans from the Fujita Hospital University in Japan.
- Collaborated with lab researchers to connect my Langrangian fluid solver with a surface morpher (MIRTK) and with a Least Squares automatic segmentation software.

Engineering & Research Intern, DNV GL Energy Group, Bristol, United Kingdom 06/2018 - 08/2018

- Worked on verifying the wake deflection aspects of DNV GL's real-time dynamic wind farm controller LongSim.

Supervisor: Dr. Ervin Bossanyi, Senior Principal Researcher.

- Performed k-ε CFD simulations of air over a wind turbine in StarCCM+ using DNV GL's cluster HORNET.

SCHOLARSHIPS & FELLOWSHIPS & AWARDS

- **2nd Best Student Paper at the 8th International High Performance Building Conference** 07/2024
- **Recognition award Mechanical Engineering Faculty, Purdue University** 03/2023
- **Best Poster Presentation, IEA Heat Pump Conference 2023** 05/2023
- **Grant-in-Aid, ASHRAE** 09/2023 – 09/2024
- **Research Assistantship, Faculty of Mechanical Engineering, Purdue University** 06/2021 – 12/2024
- **Onassis Foundation Scholar** 09/2022 – 12/2024
- **Departmental Fellowship, College of Engineering, University of Michigan** 09/2020
- **Uete, Dr. Hiroyuki and Reinhart Fellowship, University of Michigan** 09/2020
- **British Universities Chess Championship** (BUCA), **Bronze Medal 2019.** 03/2019
- **Scholarship, University of Bristol Summer Research Funding for Outstanding Students.** 06/2018 - 08/2018
- **Amphibious Vehicle 2nd Prize – University of Bristol Design Manufacturing Contest.** 12/2017

SOFTWARE & TOOLS

- **ML & data science:** Python (pandas, NumPy, SciPy, scikit-learn, PyTorch, TensorFlow), Jupyter
- **Optimization & control:** MPC, reinforcement learning (model-based), CVXPY/Gurobi, MATLAB, Simulink, Modelica, MATLAB Coder
- **Data infrastructure & cloud:** SQL, InfluxDB, AWS, time-series pipelines
- **Building & energy simulation:** EnergyPlus, ResStock, EES, Modelica

- **CFD & engineering:** StarCCM+, OpenFOAM, ANSYS, COMSOL
- **Communication & DAQ:** Modbus, BACnet, LabView
- **Laboratory:** PIV, laser fluoroscopy, nanofabrication, 3D printing, thermophysical instrumentation

PATENTS

- *Purdue University* - Logic and Apparatus for Cost-Effective Heat Comfort Control for Air-Source Single-Speed Unitary Heat Pump Systems (Patent Appl.) 01/2024
- *Purdue University* - Smart Controls for Electrical Distribution Protection in Homes (Patent Appl.) 03/2024
- *Trane Technologies* - Patent application on a novel heat pump control algorithm (Patent Appl.) 02/2025
- *Trane Technologies* - Patent application on a novel heat pump control algorithm (Patent Appl.) 01/2026
- *Trane Technologies* - Patent application on a novel heat pump control algorithm (Patent Appl.) 01/2026
- *Trane Technologies* - Patent application on a novel thermostat control algorithm (Patent Appl.) 01/2026
- *Trane Technologies* - Patent application on a novel user-friendly energy saving feature (Patent Appl.) 01/2026
- *Trane Technologies* - Patent application on a novel HVAC control algorithm (Patent Appl.) 2026
- *Trane Technologies* - Patent application on a novel HVAC control algorithm (Patent Appl.) 2026
- *Trane Technologies* - Patent application on a novel HVAC control algorithm (Patent Appl.) 2026
- *Trane Technologies* - Patent application on a novel HVAC control algorithm (Patent Appl.) 2026

SOCIETIES & AFFILIATIONS

- Technical Chamber of Greece (Mechanical Engineering section) Lifetime membership
- International Building Performance Simulation Association (IBPSA) 06/2022 - present
- American Society of Heating, Refrigerating and Air-Conditioning Engineers 07/2021 - present
- Air Conditioning, Heating and Refrigeration Institute (AHRI) 07/2021 - present
- International Institute of Refrigeration (IIR) 07/2021 - present
- Bristol University Chess Society Committee Member and Treasurer 09/2015 - 06/2019
- Bristol University Jazz Orchestra, Alto Saxophone 09/2018 - 07/2019
- Scout and Scout Leader 06/2003 - 08/2018

CONFERENCES

- 15th REHVA HVAC World Congress (CLIMA 2025), Milan, Italy 4 – 06/06/2025
- 19th International Refrigeration and Air Conditioning Conference, West Lafayette, USA 15 - 18/07/2024
- 8th International High Performance Building Conference, West Lafayette, USA 15 - 18/07/2024
- ASHRAE 2024 Winter Conference, Chicago, USA 20 - 24/01/2024
- 26th International Congress of Refrigeration, Paris, France 21 - 25/08/2023
- 14th IEA Heat Pump Conference, Chicago, USA 15 - 18/05/2023
- 2022 Building Performance Analysis Conference and SimBuild, Chicago, USA 14 - 16/09/2022
- 19th International Refrigeration and Air Conditioning Conference, West Lafayette, USA 11 - 14/07/2022
- ASHRAE 2022 Winter Conference, Las Vegas, USA 29/01 - 02/02/2022
- 18th International Refrigeration and Air Conditioning Conference, West Lafayette, USA 24 - 28/06/2021
- 5th PRIMARE CONFERENCE, Cardiff University 2018 15 - 17/06/2021

REVIEWER (JOURNAL)

Peer reviewer — 30+ manuscripts across leading energy and buildings journals including *Applied Energy*, *Energy Policy*, *Energy Conversion and Management*, *Building and Environment*, *Energy and Buildings*, *Sustainable Energy Grids and Networks*, and *Science and Technology for the Built Environment*. Reviewer for 12+ ASHRAE, REHVA, and Purdue conferences (2022–present).

REVIEWER (CONFERENCES)

- ASHRAE 2026 Winter Conference, Las Vegas, USA 31/01 - 04/02/2026
- ASHRAE 2025 Annual Conference, Phoenix, USA 21 - 25/06/2025
- 15th REHVA HVAC World Congress (CLIMA 2025), Milan, Italy 04 – 06/06/2025
- ASHRAE 2025 Winter Conference, Orlando, USA 08 – 12/02/2025
- ASHRAE 2024 Annual Conference, Indianapolis, USA 22 - 26/06/2024
- ASHRAE 2024 Winter Conference, Chicago, USA 20 - 24/01/2024
- ASHRAE 2023 Annual Conference, Tampa, USA 24 - 28/06/2023

- 26th International Congress of Refrigeration, Paris, France 21 - 25/08/2023
- ASHRAE 2023 Winter Conference, Atlanta, USA 4 - 8/02/2023
- ASHRAE and SCANVAC, HVAC Cold Climate Conference 2023, Anchorage, USA 6 - 8/03/2023
- 19th International Refrigeration and Air Conditioning Conference, West Lafayette, USA 11 - 8/07/2022

SEMINARS

- Progress in Heat Pumps with Low GWP Refrigerants, IEA 2023 Chicago 05/15/2023
- Flexibility in energy grids provided by heat pumps, IEA 2023 Chicago 05/15/2023
- Investors' role in different parts of the value chain of heat pumps, IEA 2023 Chicago 05/15/2023
- Trane La Crosse branch (Commercial), Chiller factory tour 10/01/2022
- Updates on Flammable Refrigerants, 19th International Refrigeration and Air Conditioning Conference 07/10/2022
- Ejectors and their application, 19th International Refrigeration and Air Conditioning Conference 07/10/2022
- Building Technology and routes to Zero Net Emissions, ASHRAE 2022 Winter Conference 01/30/2022
- Combined Heat and Power (CHP) Technology and its future in the US, ASHRAE 2022 W. Conf. 01/31/2022
